

CSIR BIOPROCESSING WORKSHOP | 15-26 June 2015

OVERVIEW:

The CSIR bioprocessing workshop course runs for two weeks and will cover the key aspects of bioprocess product development and process technology. The first week will cover the theoretical aspects of bioprocess and product development as well as the associated equipment and control philosophy. This will be followed by a week of intensive hands on practical training, data handling and reporting. Training includes a full production batch from cryopreserved culture to fermentation, down-stream processing and final product packaging.

THE FOLLOWING ASPECTS WILL BE COVERED:

- An introduction to Bioprocessing;
- Upstream process development – theory;
- Downstream process development – theory;
- Fermentation operations and equipment training;
- Control systems;
- Industrial microbiology;
- Hands on production of a biotechnology product.

This course will be presented in an interactive manner with a list of tasks and group activities. Individuals involved in bioprocess and product development and bio-manufacturing who are at the more advanced stages of their careers would be suitable candidates. Participants need at least an intermediate level of knowledge and expertise in fermentation technology and industrial microbiology and must be willing to work long hours and shifts for the duration of the course.

CSIR BIOPROCESSING WORKSHOP | 15-26 June 2015

FACILITATOR:

The course will be presented by Dr Raj Lalloo and members of the CSIR biosciences bioprocessing team. Dr Lalloo holds a PhD in Process Engineering from Stellenbosch University and has developed several technologies for commercialization. Dr Lalloo is CSIR chief scientist in bioprocess and product development with more than 15 years of experience in research, development, piloting and full scale manufacturing of biological products.

WHO SHOULD ATTEND?

Biotechnologists, scientists, product and process engineers. Please note that seats are limited and applicants will be selected on a first come first serve basis.

ACCOMMODATION:

Any travel and/or accommodation arrangements are the responsibility of the delegates or their employers.

FOR REGISTRATION AND GENERAL ENQUIRIES CONTACT:
